## Our Customers; Our Family

Webhannet River Boat Yard, Inc has always been dedicated to serving the needs of our customers in the most environmentally responsible way. This year we have asked ourselves, “How can we do more to exceed the environmental standards set by the DEP? How can we become a leader in environmental awareness and responsible practices in our daily business operations?”

**We are happy to announce our recent pledge to become a “Maine Clean Boatyards & Marina’s Program” member. In doing so we have promised to:**

- ✓ Keep Maine’s waterways free of harmful chemicals, excess nutrients, and debris
- ✓ Identify opportunities and implement practices to control pollution
- ✓ Storm water runoff management, erosion, and sedimentation control
- ✓ Boat maintenance and repair
- ✓ Waste recycling, disposal and storage

**Together we can make minor changes that foster positive environmental practices concerning:**

- ✓ Bottom washing and wash down facilities
- ✓ Outside scraping/grinding and painting
- ✓ Hazardous chemicals
- ✓ Litter and disposal of waste oil, gasoline, and unused paint
- ✓ Disposal/Recycling of shrink wrap
- ✓ Proper disposal of fish carcasses after use of fillet table
- ✓ Pet waste

We have created a list of ways that you can help protect the environment as an environmental addendum to our storage contract. Please see us in person to address any questions you may have.

A clean environment ensures a future to the boating industry, nourishes a healthy fishing industry and it provides our children an opportunity to enjoy the coastal waters that we are all so fond of. Thank you for supporting our efforts.

Best Regards,

Webhannet River Boat Yard, Inc.

## **Environmental Addendum**

I understand the importance of protecting our environment and agree to the following practices while storing my vessel at Webhannet River Boat Yard, Inc.

### **Wash Down Facilities-**

- ✓ I will be conservative while using water to wash my boat.
- ✓ I will turn off the water while scrubbing and cleaning the boat.
- ✓ I will use biodegradable detergents, and cleaning products whenever possible

### **Preparation and Painting-**

- ✓ I will use a vacuum sanding tool while preparing my boat for paint whenever possible
- ✓ Sand blasting must be performed inside a containment workspace.
- ✓ I will conduct scraping, sanding and painting over a tarp placed under the boat to trap any sediment, paint chips, or dripping created from entering the waterways or soil
- ✓ All paint will be applied by hand; paint sprayers are forbidden in our storage facility

### **Hazardous Chemicals**

- ✓ I will be aware of the environmental effects of products I use and will be responsible while using them
- ✓ I will dispose of any hazardous cleaning products, solvents, paints in accordance to instructions by their manufacturer.
- ✓ Webhannet River Boat Yard provides a container for rags and sponges contaminated with solvents, paint, and cleaning products such as On/Off. Please ask for assistance with disposal of these items and applicable charges.
- ✓ If you are unsure, please ask yard personnel for the proper disposal options.

### **Fillet Table**

- ✓ I will be considerate while using the fillet table and will clean it after use
- ✓ I will place all fish parts, bones and carcasses into a plastic bag; tie it and dispose of it in the dumpster.
- ✓ Please DO NOT dispose of fish, or their carcasses on the water's edge

### **Pets**

- ✓ Pets are permitted while leashed and supervised
- ✓ You are solely responsible for your pets actions, including any damages or harm they may cause while visiting
- ✓ While your pet is visiting, you must be sure to clean up any pet waste upon occurrence. Please be sure to securely bag pet waste before disposing it in our dumpster.

## **Disposal**

- ✓ The dumpster is for use by Webhannet River Boat Yard Personnel and customers, for disposal of paper, cardboard, and recreational boat related garbage created while on the premises. If you are unsure, please ask for assistance.
- ✓ Webhannet River Boat Yard provides a waste oil disposal drum; all used oil/grease is to be disposed of at a rate of \$2.50 per quart.
- ✓ Used fuel and contaminated fuel must be disposed of through Webhannet River Boat Yard and will be charged accordingly.
- ✓ Used Shrink Wrap, batteries and metals will be recycled by Webhannet River Boat Yard. Ask about applicable charges for this service.

I have read and agree to the above mentioned practices and will diligently support Webhannet River Boat Yard in their efforts to maintain a healthy environment.
